Externally, to the rear there is a delightful garden which has a patio area, lawn and an attractive raised flower bed. The garden is fully enclosed and has an access door in to the garage and a gate leading to the front. A rare feature to the property is the size of the driveway to the front, which allows off road parking for a number of vehicles. There is also a further side garden which provides a further seating area and is surrounded by hedging.

There is a detached double garage to the side of the property which benefits from built-in benches and cupboards, power, light and a pitched roof providing an excellent storage space. The garage benefits from two electric rolling doors which are remote controlled.

In our opinion, the property is presented in good decorative order throughout following many home improvements by the current vendor over the past 18-24 months, which includes redecoration and carpeting.

Further attributes to note are gas fired central heating (replaced Worcester Bosch boiler Sept 2020) and double glazing. The vendor also informs us that all curtains and fitted blinds are included within the sale.
