The Introduction

Tucked away in a popular residential setting in Meanwood, this well presented two bedroom mid-through terrace offers a wonderful opportunity to purchase a stylish and thoughtfully upgraded home. Built in the 1960s and recently enhanced with impressive eco-friendly improvements, the property perfectly blends modern efficiency with comfortable living. In Cornerstone's opinion, homes with such sustainability features are rarely found at this price point, making this a particularly exciting opportunity for buyers looking for eco credentials.

The Eco Credentials

Our client purchased the property around five years ago and has since invested in significant environmental upgrades that dramatically improve the home's efficiency. Solar panels are positioned on the south-east facing roof, harnessing natural daylight throughout the day, while an air-source heat pump powers the central heating system. These features not only reduce the home's environmental footprint but also contribute to potentially lower running costs. Reflecting these upgrades, the property proudly holds an impressive high B rating on its Energy Performance Certificate, something that truly sets it apart from many homes.

The Gardens And The Home

Approaching the property from Beckhill Chase, the home enjoys a generous front garden that creates a welcoming sense of space. The garden is mainly laid to lawn with a patio area, while a pathway leads from the front garden gate to the UPVC front door. This attractive outdoor space offers the perfect setting for relaxing during the warmer months.

To the rear, the garden can be accessed both externally and directly from the kitchen via a UPVC stable door. The garden begins with a patio area, where the air-source heat pump is discreetly located. From here, the garden rises in a tiered design, leading up to Beckhill Gardens at the rear, where there is plentiful on-street parking available. At the top of the garden sits a practical brick-built store, ideal for bicycles, garden equipment, or additional storage.

Stepping inside, the hallway has neutral and tasteful décor. From here, doors lead to the breakfast kitchen and the sitting area of the open plan living space, while a staircase rises to the first-floor landing.

The breakfast kitchen is both practical and welcoming. Fitted with a range of white cupboards complemented by contrasting worktops, the space offers ample storage and preparation areas. Integrated appliances include an oven, a ceramic hob with stainless steel splashback and extractor hood above, and a dishwasher. There is also space for a washing machine, while a large freestanding fridge freezer is included within the sale. A one-and-a-half corner sink with a drainer sits beneath a double-glazed window, allowing plenty of natural light into the room. The addition of a breakfast bar creates a relaxed spot for morning coffee or casual dining. From here, a doorway leads seamlessly into the dining area of the open plan sitting and dining room.

This impressive open plan living space forms the heart of the home. Stylishly decorated and enhanced by coving to the ceiling, the room enjoys an abundance of natural light thanks to large double-glazed windows to both the front and rear aspects. These outlooks provide pleasant views across the front garden and up the tiered rear garden, creating a wonderfully bright and airy environment that is perfect for both relaxing evenings and entertaining guests.

Upstairs, the first-floor landing continues the home's tasteful presentation. The digital thermostat for the air-source heating system is conveniently located here, and the landing also benefits from a useful storage cupboard. Doors lead to two generous double bedrooms, a bathroom and a separate W.C., offering a practical layout that suits modern living.
