Summary

A substantial detached home set within grounds of just under an acre, with planning permission already granted for an additional four bedroom detached property within the plot. Offered with no onward chain, the property combines extensive living space, established gardens and a semi rural position with excellent access to nearby road networks and schooling.

The accommodation extends to approximately 1,773 sq ft and centres around an impressive open plan kitchen dining living space with exposed beams, oak flooring and doors opening onto the rear patio and gardens. There are two further reception rooms, including a particularly generous main living room measuring over 24ft in length, creating flexibility for family living, entertaining or home working.

Upstairs are three double bedrooms, two bathrooms with the main bedroom benefitting from fitted wardrobes and an en suite style layout. Character features continue throughout the property, including exposed brickwork, fireplaces and timber beams, balanced with more modern finishes in the kitchen and bathrooms.

Externally the property sits within mature grounds with large lawned gardens, woodland areas, extensive patio seating and ample gravelled parking to the front. The setting offers a good degree of privacy whilst still remaining well positioned for access to major road links and surrounding towns.

A rare opportunity for buyers seeking a home with further development potential already in place.

Location

Brickyard Cottage is conveniently located on the edge of the sought-after Cawston area, benefitting from excellent local amenities including shops, parks, and highly regarded schooling. The area is exceptionally well connected, with regular bus services, swift access to major road networks including the M1, M6 and M45, and Rugby railway station providing direct mainline services to London Euston in under 50 minutes, making it an ideal base for commuters.

Outside

Externally the property is set within grounds of just under an acre and enjoys a particularly private setting bordered by mature trees, established woodland and open countryside views. The gardens have clearly been designed with both family living and entertaining in mind, with large lawned areas, extensive patio seating and a woodland stream creating a setting that feels far more secluded than its convenient position may suggest.

To the rear, a broad paved terrace runs across the back of the house and provides multiple seating and dining areas overlooking the gardens. The outside space works particularly well for families, with plenty of open lawn, space for play equipment and a gently sloping aspect that gives the plot an impressive sense of scale. There is also a large outbuilding here with potential for development.

Beyond the formal gardens is a wooded area with a stream running through, adding character and a more natural backdrop to the grounds. The plot itself offers a good balance between usable garden space and mature planting, with established trees and borders helping create privacy throughout the seasons.

To the front there is extensive gravelled parking along with additional outbuildings and storage areas, while the elevated aerial aspect highlights both the scale of the grounds and the position of the property within its surroundings.
