### Outside

The property has an attractive frontage with a wrought iron gate and path to the front door from Bedale Road. To the side of number 31 Bedale Road is the driveway for the property which leads to an archway under the outbuilding to a hard standing parking area with room for plenty of cars with turning space and also has a double garage with two up and over doors, lighting and power points. The driveway has a right of way for number 33 to their property and driveway which is located off the drive but before the archway.

Also off the driveway is lawned area with an orchard of fruit trees perfect for growing vegetables or may even present a building opportunity subject to planning permissions. There was planning permission for a detached bungalow and two semi detached bungalows granted in 1992 that has now lapsed. Application number 2/92/004/0002H.

The hardstanding parking area also has a garden shed, store for a sit on a lawn mower and a greenhouse. A gate then leads through to the rear garden separated from the parking area by an attractive stone wall boundary. The rear garden is mainly lawned with mature inset trees and planted borders with paved paths to the rear porch at the back of the house and to a summer house which has lighting and power. There are two paved seating areas ideal for entertaining, one at the back of the house and one at the top of the garden and the rear garden is all enclosed by walled boundaries. The rear garden also has extra storage from a brick outhouse which has a light and power points and is situated next to a gate leading into the rear of number 31 with a right of access out to the driveway.

The previously mentioned outbuilding is substantial and in need of repair. A former Eben Ezer Baptist chapel dating from 1842, the building is brick built with two floors with a roof also in need of attention with missing and broken slates. The building is big enough to create an annexe or would suit a variety of other uses including an at home gym and office or as excellent storage for anyone in the trade.
